Divano Lounge carefully selected the best quality of Burmese teak wood. The most salient characteristic of Teak is its resistance to all kinds of weather and this suits perfectly with our philosophy. To ensure that our products meet our standards for quality and sustainability, Divano Lounge has a wide ranging corporate environmental program that guides every aspect of our product development and manufacturing operations.

Sunbrella fabrics are durable.

Sunbrella superior pigments are added during the production of fade-resistant Sunbrella fibre. The final result is Sunbrella yarn and fabric with colour throughout that won't fade or wash away. Think «carrot».

In ordinary fabrics, dyes are added to the surface of the yarn or fabric. The colour only penetrates the outer layer and washes out or fades away over time. Think «radish».

Sunbrella fabrics are easy to clean.

Sunbrella fabrics are amazingly easy to maintain, and most spills can be cleaned with mild soap and water. For tough stains, bleach can be used without fear of damaging the fabric or removing the color.

The best way to keep Sunbrella fabrics looking good is to properly maintain them by brushing off dirt before it becomes embedded and wiping up spills as soon as they occur.

Additionally, a topical finish is applied to all Sunbrella fabrics to help them repel liquids making it even easier to maintain.

Sunbrella fabrics protect you from the elements.

The Skin Cancer foundation recommends Sunbrella as a part of your complete sun protection regime, including regular use of sunscreen.

\* Does not apply to styles of Sunbrella that are designed for transparency, such as Sunbrella Velum
